Annexure to Govt. Order No. 197-Ind of 2018 dated 10-08-2018

J&K TRADE AND EXPORT POLICY 2018-28

1. Introduction :

1.1 The State of Jammu & Kashmir with the hope inspired by the goals of Development Vision of the Country and determination to consolidate gains on the macroeconomic front and to face the economic challenges that lie ahead, looks forward for forging a strong, diversified, resilient and competitive State economy. Towards this end, all sectors have specific roles and contributions to make in raising pace of development to a dynamic self-sustaining level. In this regard, trade and commerce function is seen as a central and pivotal pillar in attainment of the mission of moving to Trade and Export led economy with higher proficiency, productivity and competitiveness from agrarian economy.

1.2 While the National Development Vision inspires and raises hope, the argument for trade as the engine of growth and development in the face of globalization needs no emphasis. Unfolding developments in the political, economic and social spheres are bringing about tremendous changes and challenges in the business environment. These changes entail perceptible shifts in economic relations, evident in the trade liberalization and globalization phenomenon.

1.3 Thus, the State requires a Trade and Export Policy that will ensure effective participation in the designed framework and codified trading system that has emerged at the national and international level and in seizing the opportunities inherent in the free flow of resources inherent in globalization. The State Trade & Export Policy intends to ensure that liberalization offers meaningful, identifiable and measurable benefits to entrepreneurs.

1.4 The efficacy of Trade and Export Policy depends on the establishment of a specific macroeconomic, social and political environment. When fundamental changes occur in the underlying environment, the configuration of policy strategies have to change. This Policy reflects the dynamics of Jammu and Kashmir State as an agrarian economy in transition towards a market driven one.

1.5 The Trade and Export Policy expects to assist the State strive to carve a place for itself in the national economy and a niche for its products in the national and international market. The private sector would be the lead stakeholder, the economic agents responsible for the production of goods and services would enable the State to occupy its rightful place in the global market. The public sectorôs primary role is that of enabling and facilitating this process. This essence of the strategy will enable J&K to use her resources, especially her manpower base, to address economic challenges with the objective of attaining goals of the Development Vision and enhancing percapita income of the State.

1.6 This Policy document has therefore been formulated with consciousness and belief of the State Government that trade and investment regime encourages integration into global trading environment and import of diverse and modern technologies that are important for productivity improvements.

2. Policy Vision :

2.1 Role of trade sector towards the realization of the goal of economic development will be attained through the structural transformation of the economy and enhanced value added productivity that would in turn contribute to the process of competitiveness and lead to rapid economic growth. The Policy Vision, in the aforesaid context, has to be :

"....to transform the state economy from a supply constrained one into a competitive export-led entity

responsive to enhanced domestic integration and wider participation at national and global economy through trade liberalization in tune with the national policies."

3. Mission :

3.1 Trade is not an end in itself but a means for achieving higher level of welfare of the society. The function of the trade sector, therefore, is to integrate the State economy into the national and global economy through trade. This entails structural transformation of the State economy in tandem with initiatives in this regard at the national level, and product/market diversification.

3.2 Indeed, to have a sustained economic growth rate which is capable of addressing the challenge of unemployment issue in the State depends on developing a modern export-led economy. High volumes of exports are necessary to achieve the goals of sustained economic development. Sustaining a high growth rate is a necessity but not sufficient condition. Growth has to be complemented by broad-based equal opportunity of access to the primary assets of production - land, skills and finance- for such growth to be translated in to economic and social well being. The mission of the trade sector is therefore to :

"....stimulate the development and growth of trade through enhancing competitiveness by creating favourable ecosystem aiming at rapid socioeconomic development."

4. Objectives :

4.1 The State Government, by adopting this Trade Policy aims to achieve the following objectives :ð

Å To enhance the domestic trade volume by five times from the existing level at present in next 10 years.

- To move more speedily towards transformation of its role from ôregulatorô to ôfacilitatorô and from performer to enabler for the Trade and Commerce sector.

- To encourage, promote and facilitate more investment in enterprises and build a strong, responsive and vibrant business environment in the State.

- To recognize the significant role of distribution of goods and services in generation of employment, the Government shall endeavor to increase the share of Trade and Commerce in GDP by at least 3% in next five years and to add to per capita income of the State. Further, to raise, the share of State in the gross national export from 0.05 % at present to 2 % in next 10 years.

- To raise efficiency and widening linkages in domestic production and building a diversified competitive export sector as the means of stimulating higher rates of growth and development.

- To provide employment opportunities to the educated unemployed and skilled youth in the field of Trade and Commerce by concerted human resource and skill development interventions.

- To provide guidelines for State Development Plans for reserving suitable patches of land for facilities such as warehousing and logistics support helpful in promoting retail, wholesale and exports trading in and from the State.

- To create new markets and ancillary facilities through regional development plans.

5. Strategy :

5.1 One consequence of liberalization is the de-facto merger of domestic and international markets into a single market and

the necessity for domestic business and trading entities to become internationally competitive even in internal markets. One of the impacts of globalization is the accessibility to domestic firms, of resources that can facilitate enhanced productivity and efficiency necessary for competitiveness. In this setting, export-led growth is both an opportunity and a challenge for the State. Entrepreneurs of the State have to strive towards production of higher quality goods and first class services at lower prices. The overall strategy includes reform of institutional structures and change of cultural norms and practices in economic activities so as to put in motion the process of re-orienting the economy towards an open market system targeting export-orientation.

5.2 Jammu and Kashmir Stateôs export remains too heavily focused on primary commodities and its share of total trade in India remains low, despite numerous economic measures and domestic market liberalization. Inter-state trade is particularly limited. Therefore, there is a need to identify cumbersome and non-transparent state border administration, particularly import-export procedure.

5.3 Export enhancement strategy including identification of focus products, focus markets and market linked focus products shall be adopted. Focus products can be Basmati rice from Jammu Division, Saffron, Handicrafts and Handloom products and Horticulture produce from Kashmir Division. In consultation with the Regional Authority of DGFT, CEPC, EPCH, ITPO etc. such products and sectors shall be recommended for various export incentives given by the Government of India from time to time.

5.4 The strategy measures will also include the support for standardized international certifications, packaging, development of common facility centres e. g. Pack Houses and Vapour Heat Treatment facilities and development of market linkages with the outlets of international chain stores

across the country. Besides, the stakeholders in export sector will be informed, through a series of seminars and information events about the focus markets in terms of the emerging opportunities for exports.

5.5 District/Regional Export Promotion Committees shall be notified involving the Regional Authority of DGFT in Jammu and Srinagar and other stakeholders in every District/Region of the state to focus on promotion of District/Region specific products and cater to the demands of the exporter community from those Districts/Regions. This shall also help in resolving the issues and concerns of MSMEs and small businesses that face problems in exporting their goods or services. These committees shall identify the existing gaps with reference to export infrastructure and policy initiatives that would be required to attain the export growth potential of the State.

5.6 It would be collective endeavour to assess specific sectors for demand-supply gaps, their potential for export in the next 5-10 years and identify policy initiatives to promote value addition in the export of goods from the State.

5.7 Steps shall also be taken to promote organic cultivation and certification and required skill training in this area shall be promoted involving the APEDA and the State Agriculture Department.

5.8 The strategy would be to provide an assessment of ñas isò situation of the State in terms of its economic profile, availability of physical and social infrastructure as well as highlight the key factors of production which can serve to create a conducive ecosystem for export growth. In identification of champion export sectors, the sectors with high global demand, those contributing significantly to the Stateôs export share, sectors where State is showing high competitiveness in the domestic market and significant contribution in the domestic production and trade value, sectors which can generate more employment and services would be focused.

5.9 For each of the identified champion export sectors, a high level assessment of demand-supply gap shall be undertaken to develop a broad prospective of export potential in the next ten years. Further, a value chain analysis of the sectors shall be conducted in order to identify opportunities for moving up the value curve in the future. Gaps in infrastructure and policy initiatives would be regularly identified and plugged to ensure attainment of the export growth potential of the State. Besides, in order to layout a clear roadmap to address various identified gaps, Government shall prioritize various initiatives in terms of impact and ease of implementation, layout specific timelines and key nodal agencies for each initiative and shall also develop a responsibility matrix that clearly identifies the roles of the Centre and the State Government in helping the State attain its export potential. The export strategy to be followed shall be as depicted through the following flow-chart :ð

1. **Vision Development :**

   Defining aspiration of the State with reference to its role in global value chain and trade growth.

5.10 The value of services exports has increased in India over the years and there is demand for Indian services world-wide. The share of service sector in total exports of India in 2016-17 was 36.80%. Indiaôs services exports are dominated by the software sector followed by business, trade, transportation, finance, insurance and communication services. The J &K State has its own share of services exports in these sectors including fair amount of share in health and engineering sectors as well.

5.11 Some of the issues concerning services exports are connected to work permits and visa, rationalization of taxes, simplification of rules of temporary stay and social security contribution issues for short term workers. However, all these issues fall under the domain of Union Government and are being dealt at that level.

5.12 To be specific on policy concerning J&K, ñTourismò, be that leisure, adventure, eco or MICE tourism, has in the past remained a significant foreign exchange earner for the people of the State. A chain of Golf courses in lush green surroundings has added one more tourism activity for high end tourists. Domestic pilgrimage tourism has increased considerably however, the overall tourism of the state faced tough time over the years especially the foreign tourism due to negative advisories issued by European and Western Countries.

5.13 With a view to develop J&K as a dynamic, sustainable and favoured destination offering high quality experience to increase the footfall of domestic as well as the international tourists, the Government is working for :

Å developing potential new and emerging markets through the targeted marketing strategies based on tourist profile ;

- harnessing of the opportunities available in the sectors like Adventure, Caravan Tourism, Heliport Tourism, Handicrafts, Pilgrimage, MICE, Heritage, Eco-Tourism and Golf etc. ;
- development of human resources for tourism sector and capacity building of the tourism stakeholders ;
- diversification of Jammu and Kashmir Tourism products ;
- showcasing Brand Jammu and Kashmir in tourism ;
- standardization of the establishment of tourism products and services by eco-friendly infrastructure ;
- promotion of sustainable tourism and encourage the conservation and preservation of unique natural and cultural heritage of Jammu, Kashmir and Ladakh ;
- ensuring ótotal qualityôservices to tourists by introduction of modern technologies and information dissemination for tourist products and services ;
- encouragement of a strong and sustainable participation by private Sector in creation of tourism infrastructure especially through public private partnership (PPP) ;
- promotion of effective inter-departmental coordination to streamline processes and increase sector performance in areas like Horticulture, Agriculture, Sericulture, Health, Bio- Tech and IT.

5.14 Human Resource and Skill Development :

5.14.1 Special emphasis will be given to the development of human resource and skill development for increasing employability in the sector of Trade and Commerce. Government Institutions and established Private Institutions will be encouraged to conduct certification based training and placement programs.

5.14.2 Skill Institutes such as the Craft Development Institute (CDI) and the Indian Institute of Carpet Technology (IICT), Srinagar intend to start skill programs, namely, Craft Design Programme and Handloom Technology respectively.

5.14.3 The Indian Institute of Carpet Technology (IICT) and Craft Development Institute (CDI) have been working tirelessly in digitizing the traditional, contemporary designs of Carpets and all other crafts of the State. Both the institutions have created their design banks.

5.14.4 Design Studio equipped with latest digital equipments including few world famous Design Softwares has been established in IICT. The introduction of Design Softwares has eased design work enormously as it used to take months together for a group of persons comprising of Naqash (Designer), Taleem Writer and a Taleem Copyist to make the carpet design of standard size and then to transfer the design drafted on graph paper (outline only) into the coded pattern known as Taleem in the local language. As many as 905 carpet and 190 Kani Shawl designs have been developed in the digital form in the Design Studio with the application of different Design Softwares. These designs have been provided to the industry in the form of computerized design papers (Talim) on nominal charges.

5.14.5 Design Innovation and Product Development is continuing activity of CDI wherein about 800 new design samples have been created and digitized nearly 600 artisans have been trained on these new designs.

5.14.6 The Jammu Kashmir Entrepreneur Development Institute (JKEDI) is establishing a Centre for Incubation & Business Development to guide young entrepreneurs in gaining access to capital, material and market support for their projects.

5.14.7 To promote women entrepreneurship, two Women Entrepreneurship Development Institutions (EDIs) are being developed, one each in Srinagar & Jammu.

5.14.8 The Government will collaborate with the Department of Commerce, Government of India in organizing various outreach programs related to Export procedures under Niryat Bandhu Scheme of Government of India, training on manufacturing practices and other requirements related to SPS-TBT issues, Anti-Dumping and Safeguard duties etc.

5 .15 Communication and Logistics Infrastructure :

5.15.1 The State is largely dependent on road transport for carriage of goods and there are road bottlenecks, particularly during the months of winters and rains. Apart from the loss of time in detention, the goods and the crew of the vehicles are subjected to vagaries of the weather in the absence of adequate protection and roadside facilities, and the cost of goods to the consumer increases. The Government also recognizes that the transport industry operates through several layers of intermediaries which affect its cost efficiency and transparency.

5.15.2 The Government would support establishment of world class warehouses/distribution centers/Logistics Parks/Dry Ports by means of allocation of land and incentives for such activities.

5.15.3 The Government shall pursue the case with the respective GoI authorities to functionalize the Inland Container Depot/ Air Cargo Complexes at Jammu, Srinagar and Leh.

5.15.4 The Government also envisages to have multi-model Logistics Parks and Dry Ports in collaboration with Local, National and International Companies in the field.

5.15.5 The Government looks forward to the completion of railway connection between Kashmir valley and rest of the country (target year 2022) and ongoing four lanning & upgradation of NH IA is expected to change the entire transport scenario for the State.

5.15.6 The Government shall endeavour to appropriately take up the matter with Civil Aviation Ministry for allowing International

flights to operate from Srinagar Airport so as to enhance export volume from the State especially in handicraft and handloom sectors. Efforts shall also be made to set up an Air Cargo Complex with warehouse facility at Srinagar airport. Besides, efforts shall also be made to make Inland Container Depot (lCD) Jammu fully functional by filling the infrastructure gaps besides setting up of additional lCD hubs in the State to improve the export logistics.

5.15.7 The Government shall have a critical look at its powers vested under section 72 of the Motor Vehicles Act for revising the restrictions imposed on vehicles including the maximum laden weight permissible for the goods carriers, keeping in view the improvements made on various roads and highways.

5.15.8 The Government shall look into problems faced by exporters who use containers in respect of their maximum laden weight and levy of Toll on the empty containers in the interest of promotion of exports.

5.15.9 The Government shall improve basic infrastructure and civic amenities at the major loading and unloading points/warehouses and overnight parking lots for the goods carriers.

5.16 Development of new Markets and amenities :

5.16.1 Based on pure objective criteria, the Government/the concerned Municipal Corporations/Urban Local Bodies shall examine for liberalized conversion of the identified residential pockets into commercial zones so as to arrest haphazard and clandestine conversion of individual residential houses into business premises.

5.16.2 Adequate provisions for commercial activities including kiosks and central markets shall be kept in the new housing colonies to be developed by the organizations like JDA, SDA and the J &K Housing Board depending upon the size and the location of the colony. Similar practice shall be adopted by the private developers of housing colonies.

5.16.3 Demand surveys shall be undertaken by the Government through professional consultants for development of future markets. A cluster approach would be adopted for development of specialized markets wherever feasible/advantageous. The retail trade organizations would be encouraged to formulate SPVs for development of new markets.

5.16.4 The H&UDD shall expedite development of warehousing facilities as per their announced programmes and if needed, the Industries & Commerce Department shall provide input for the same. ôSmart Cityô project shall also strengthen the above endeavors of the Government in Srinagar and Jammu.

5.16.5 The Government shall facilitate creation of adequate facilities and civic amenities like paving of parking areas, provision of raised platforms for loading/ unloading and conducting auctions, drainage for rain water, toilets, clean paths for the movement of the buyers and sellers, street lighting etc. in the areas where markets have come up or have been created/developed by the Government agencies.

5.16.6 Various Government Corporations dealing with Handicrafts and Handloom, Agro Industries, Horticulture (Produce and Marketing) etc. shall use National or State E-commerce platforms for trading products from respective sectors to increase outreach of local products worldwide at lower costs. E-marketing shall also eliminate mediators and improve linkages between farmers, food processors, small time artisans/ manufacturers and retailers.

5.17 Use of Technology :

5.17.1 The Government shall encourage use of Information Technology (IT) by all concerned agencies to enable the trading community to gradually move towards modernization, providing virtual showrooms at household levels, IT application and digital transactions. If required, it will collaborate with the J&K Bank for promotion of its Point of Sale (PoS) service to the retailers.

5.17.2 The Government shall facilitate e-filing of returns under various labour laws and financial codes as also for depositing various types of fees including monthly payments of employer's share of the Provident Fund into the account of the PF Commissioner.

5.17.3 The Government shall take steps to attend to the work of compiling Provident Fund accounts of workers covered by the Employees Provident Fund Act under the aegis of the Labour Department.

5.17.4 The Government, for enhancing traceability of transactions and need to save paper by retailers, shall allow to have options to issue e-bills (tax invoices) to consumers in electronic mode. The GST regime has already started this process.

5.17.5 The Government intends to bring more transparency in the procurement of goods by making procurements through GeM Portal/Other GoI e-Commerce platforms at the approved rates that would also bring cost efficiency in the system.

6. Trade Scenerio :

6.1 Domestic Trade comprises mainly of wholesale and retail trade activities and the external trade which is mainly based on exports of goods is largely dependent on external factors including the policies of the importing Countries.

6.2 The Services sector covers a wide variety of activities such as trade, hotel and restaurants, transport, storage and communication, financing, insurance, real estate, business services, community, social and personal services and services associated with construction.

6.3 About 23% to 24% share in the Service Sector is claimed by the Internal Trade based on wholesale and retail activity, of which 10% is Wholesale and 90% the Retail Trade.

6.4 Despite constraints the vitality of the Internal Trade is always very paramount as it not only provides selfemployment but

also boosts the creation of employment. It serves the public at large by supply of goods and services. One of the notable aspects of both wholesale and retail trade in India is that they operate at the lowest margins than in any other Country. Thus this is the biggest laudable service, this sector is rendering to common man.

6.5 In Jammu and Kashmir State, which traditionally has been an agrarian economy, over the years, the Internal Trade as part of the service sector of State economy has emerged as largest contributors towards the State GSDP.

6.6 Since the organized retailing business is projected to grow at 25% per annum, it will also benefit the State by attracting massive investments and professional expertise in the sector which shall create large number of white collar jobs. It shall also boost the rural economy by establishing direct business contacts with the farmers through efficient supply chains, cutting down huge intermediary expenses and heavy storage and transportation wastages.

6.7 The Government intends to enhance the percentage share of the exports in the GSDP of the State from presently 0.7% during 2016-17 to at least 3.5% of the GSDP during the policy period. The last 10 years export trends from J&K are as under :

6.10 Loc Trade :

Though the figures of LoC trade are not captured by the Department of Commerce, Ministry of Commerce and Industry, Government of India while finalizing national level state-wise export figures but it has taken a different importance in the trade and export scenario of the State. Opening of Cross LoC trade along Uri-Muzaffarabad and Poonch-Rawalakote routes on 21st October, 2008 as part of Confidence Building Measures (CBMs) between Pakistan and India marked a paradigm shift since the sub-continent was partitioned in 1947. It has many unique features. The two governments declared Cross-LoC trade as zero-tariff trade as it is not treated as international trade. The Exports are called ótraded-outô goods

and Imports are called ótraded-inô goods. 21 items have been agreed for this trade between the two parts of the State.

6.11 Trade volumes have substantially shown an increase despite the trade being on barter terms with lakhs of proper communication channels, absence of banking system, dearth of legal enforcement of contracts and limited number of trade days and tradable goods. Following table depicts the quantity and value of Traded-in and Traded-out goods between the two parts of the State :ð
